

# Clerk Connect

## What's new 08/27/2018

1. Civil Suit Details- options to view images from service returns and documents (if available)
2. Fixed an issue where positive inquiry balances (green color) were showing in parenthesis
3. Bossier Parish- removed consideration from the property search results
4. Attorneys with multiple phone numbers were getting duplicated in the Attorneys tab of suit details
5. E-Recording credit card email receipt was displaying the wrong online service fee totals (this had no impact on the amount actually charged, just a display issue on the email)
6. E-Recording submissions that were abandoned at credit card checkout were incorrectly showing as "In-Process" in transaction history.
